

Waxes

## Sunflower Seed, Wax

VEGAN

CRUELTY-FREE

Sunflower seed wax is derived from the seeds of sunflowers. This wax is produced via a chemical free hydrogenation process using the unsaponifiables matter of Sunflower oil. With an approximate melting point of 65 degC this product offers stability in your formulation. The wax is a reliable ingredient & is commonly used in lip care products, hair waxes & face masks & even car wax to give your vehicle that extra shine! You can use it alone or mix it with other oils.

### What can it be used in?

## Functionality

### Emollient

Softens and smooths the skin, creating a protective barrier that locks in moisture. It is particularly beneficial for dry, rough, and chapped skin, providing deep hydration and improving the skin's texture.
